4.2 Pairing with Phone or Other Devices

To use the Bluetooth headphones, you must first pair them with your mobile phone or other Bluetooth devices. Once your Bluetooth headphones are successfully paired with a specific mobile phone, they will remain paired and automatically recognize each other within range.

The process for pairing with your phone or entertainment device is as follows:

- 1) Turn on your phone and ensure that the Bluetooth function is activated.
- 2) Turn on the headphones and enter pairing mode.
- 3) Follow the instructions on your phone to search for Bluetooth devices. Refer to your phone's user manual for more information.
- 4) After a few seconds, your phone will list ON-903 as a discoverable device. Select it and follow the instructions on your phone to complete the pairing process.
- 5) Your phone will confirm the pairing request, please press "Yes"/"OK".

4

4.3 Charging Instructions

⚠ For your safety, please always use an appropriate 5V input charger/adaptor to charge the product. Do not use Type-C fast chargers, as this may damage the product.

Connect the Type-C plug to the Type-C charging port on the headphones. Then, connect the other end of the Type-C plug to a USB port on your computer or adapter to activate charging.

** Before initial use, ensure the headphones are charged for at least 2 hours to ensure a full charge.

⚠ **Note:** The micro Type-C charging cable provided with this product is intended for use with this product only. Please only use the provided Type-C charging cable for charging.

Warning

- You must select a qualified charger manufacturer.
- If the Bluetooth headphones have not been used for more than 6 months, they must be charged.

7. Safety Instructions for Lithium Battery and Charging

- The input voltage for the product is 5V 1A.
- To ensure safe and reliable charging of the product, please only use certified and appropriate chargers/adapters.
- Only charge in environments with temperatures ranging from 10°C (50°F) to 40°C (104°F).
- Do not expose to heat exceeding 70°C (158°F), such as direct sunlight or fire.
- Turn off the product after use.
- Please note that we will not be liable for any misuse (e.g., voltage exceeding 5V), as this may result in serious injury or property damage, and we cannot control user actions during product use.
- In extreme cases, misuse or abuse of the lithium battery pack may result in explosion, heating, fire, or smoke.
